

ARE YOU AN AUTISTIC YOUNG ADULT WHO WANTS SUPPORT IN REACHING YOUR PERSONAL GOALS?

If you are 18 - 30 years old living in Philadelphia, this new research project may be for you!

DREXEL UNIVERSITY
A.J. Drexel
Autism Institute

CAPS

Community Autism Peer Specialist (CAPS) Study

OUR GOALS

We want to learn how an autistic peer support program (CAPS) works to support autistic individuals. More information about CAPS:

- Prioritizes the goals of autistic individuals.
- A service from a trained CAPS professional who is also on the Spectrum to talk about goals.
- Goals can be in areas like living, learning, working, and socializing in your community.
- To learn how well this program works, you will either receive the CAPS Program or other resources/services.

LOCATION

This study will occur throughout Philadelphia, depending on your needs and preferences.

CONNECT WITH US! We hope to work with autistic adults who:

- Are between the ages of 18-30 years
- Have a diagnosis of autism spectrum disorder
- Live in Philadelphia County
- Communicate in English
- Are or may be eligible for Medicaid

What happens in this study?

1. You will complete a survey when you enroll in the study and at 3 months and 12 months.
2. You will also take part in one interview.
3. You will receive up to \$60 in gift cards.

What are your rights?

Participation in this study is entirely voluntary. You can choose to take part in or leave the study at any time. Your information will be kept private.

If you're unsure if you meet the requirements, call or email a member of the study team:
